

Capability Statement

Bridging global standards with local realities for sustainable business and development in Somalia.

WHO WE ARE

MOSHAN CONSULTING is a Somalia-based multidisciplinary advisory, research and technical consultancy, established in 2015 and headquartered in Mogadishu. We help public institutions, development and humanitarian organisations, civil society and businesses move from diagnosis and policy intent to usable systems, evidence, capacity and implementation tools. We lead integrated assignments, provide specialist workstreams, and serve as national delivery partner within consortia.
